Introduction to Incident Investigation

Introduction to Incident Investigation

Aegide International offers the NEBOSH Introduction to Incident Investigation (INV) training. NEBOSH and Great Britain's Health and Safety Regulator, the Health and Safety Executive (HSE), have jointly developed this one day qualification that shows how non-complex incidents can be investigated effectively. By learning lessons and making improvements, organisations can avoid similar incidents occurring in the future.

Target audience

This qualification is for anyone who wants to carry out incident investigations effectively.

This qualification is particularly relevant for:

- managers,
- supervisors,
- SHE Champions,
- union representatives
- aspiring health and safety practitioners.

Prerequisites

- There are no entry requirements for this qualification, but it is recommended that learners should already have an underpinning knowledge of health and safety issues.
- Reading and writing in English.

Objectives

At the end of the training, the participant must be able to:

- Independently investigate simple incidents
- Gather evidence including conducting witness interviews
- Produce an action plan to prevent a recurrence of an incident
- Contribute to team investigations for large scale incidents
- Positively impact the safety culture in your organisation

NEBOSH training

Introduction to Incident Investigation

Course contents

Total duration of the training: 7 hours

Understand why incident investigations are carried out and how human and organisational factors contribute to incidents

- Moral, legal and financial arguments for investigations
- Human and organisational factors

Understand how to investigate incidents and confidently carry out an investigation

- Investigating incidents
- Positive strategies and the barriers to successful interviews
- Advanced incident investigation techniques

Exam / Validation

A practical assessment is done at the end of the course, which will take approximately 60 minutes to complete.

Delegates will be provided with a pack of evidence and shown a video of three witness interviews. They will be asked to review the evidence, evaluate each interview and produce an action plan that will help prevent a recurrence of an incident.
