

IEMA Training

Foundation Certificate in Environmental Management

Foundation Certificate in Environmental Management

This course will provide learners with a foundation of environmental and sustainability knowledge to build on. Covering a wide range of environmental, sustainability and governance principles, this course will give learners an understanding of the breadth of the sustainability agenda, and the management tools and skills that they will need when working within this area.

Target audience

Learners who are starting out in environmental management, and want a solid foundation of environment and sustainability knowledge to build on. Those who would like to gain Associate membership of IEMA.

Prerequisites

There are no formal entry requirements for this course.

Objectives

- Gives learners a solid foundation in environment and sustainability with which to build their knowledge on.
- Covers a wide range of environment and sustainability principles.
- On completion the learner becomes eligible for Associate membership, giving them the AIEMA suffix and the benefits of IEMA membership.

IEMA Training

Foundation Certificate in Environmental Management
