

IOSH

Working Safely

IOSH Working Safely is designed to train up employees to abide by essential health and safety practices in the workplace. Through the one-day training course, delegates will develop health & safety awareness skills to identify and deal with common hazards and learn why this is important to maintaining a productive and safe working environment.

TARGET AUDIENCE

Working Safely is for people at any level, in any sector worldwide, who need a grounding in the essentials of safety and health. It gives everyone at work an understanding of why they must 'work safely' – and does it in an enjoyable way.

PREREQUISITES

- Know how to read, write and speak French.

OBJECTIVES

- Understand the importance of working safely.
- Understand the importance of working safely. Be able to differentiate between common hazards & risks.
- Be competent at identifying and controlling hazards & risks.
- Understand the importance of safety performance within the workplace and how to improve it.

COURSE CONTENT

- **Module 1. Introducing working safely**
- **Module 2. Defining hazard and risk**
- **Module 3. Identifying common hazards**
- **Module 4. Improving safety performance**

Completion of the course will also ensure that employees as individuals and the company as a whole have the necessary knowledge to comply with HSE legislation.

■ **Assessment**

The IOSH Working Safely course assessment is two-fold:

- a 10 question multiple-choice test
- a practical hazard-spotting exercise, each of which lasts 15 minutes.

Successful participants receive an IOSH Working Safely certificate in English.
