

ISEP

Foundation Certificate in Sustainability & Environmental Management

This course will provide learners with a foundation of environmental and sustainability knowledge to build on. Covering a wide range of environmental, sustainability and governance principles, this course will give learners an understanding of the breadth of the sustainability agenda, and the management tools and skills that they will need when working within this area.

TARGET AUDIENCE

This course is aimed at people who are new to environmental management and want to build a solid foundation of knowledge about the environment and sustainable development. Those who wish to become associate members of ISEP.

PREREQUISITES

- Know how to read, write and speak French.

OBJECTIVES

- Gives learners a solid foundation in environment and sustainability with which to build their knowledge on.
- Covers a wide range of environment and sustainability principles.
- On completion the learner becomes eligible for Associate membership, giving them the ISEP suffix and the benefits of ISEP membership.
